Note to Homeowners: For your protection please make sure you have copies of your contractors' liability and workers comp insurance, as well as copies of the licenses and insurances for any of the subcontractors working on the job. The Commonwealth of Kentucky requires that all electricians, plumbers and heating and air professionals be licensed, the use of unlicensed contractors is not only unsafe, but also illegal.

Prior to any construction that will penetrate the soil a location of all underground utilities utilizing the Kentucky 811 service is required by law, this includes installation of fences and landscaping features. Dial 811 and place confirmation number here: _____

A site plan must be submitted for all projects, the homeowner or their agent obtaining the permit must know where the property lines are and all structures to be constructed must have the appropriate measurements from the property lines included on the site plan. The setbacks from the property lines are defined by the zoning requirements of your specific region and must be adhered to unless the Board of Zoning Adjustments has issued a variance. Remember when planning your project that no fence may be constructed in excess of 4 feet in height in the front yard setback and ALL swimming pools capable of containing water more than 24 inches in depth shall be completely surrounded by a fence or barrier at least 48 inches in height and having a self-closing self-latching gate.

Return this application to room 208 or 212 of the City Building. Should you have any questions please call (606) 327-2030 for the Building Inspector.
